Raptor Education

NOTES FROM THE NEST

Welcome to Summer, Raptor Lovers! SUMMER 2024

We made it through spring and the nesting season! We think that with all the rain we had, the birds had an easier time feeding their young. We didn't get a lot of calls for baby raptors falling from nests. But did get many calls about youngsters learning to fly, vocalizing and begging to be fed, and fledglings that could be in distress.

With summer here, more education programs are opening up. We're going to be back at William Heise Campground in Julian, Daley Ranch in Escondido, and Torrey Pines State Park in La Jolla. Please check in with us on dates and come see us at a presentation! We've also been invited to some of the local Indian reservations, giving presentations in their classrooms on raptors and their importance in nature.

It's always been a mission of Sky Hunters to educate the community on how important our wildlife is, what to do and NOT to do if you find a sick or injured wild animal, and the laws we have protecting our wildlife. Please don't hesitate to get in touch with us with any questions. Please contact us at skyhunters@icloud.com or **619-985-9686**.

We've still got our very dedicated volunteers, **Shawnie Williams, Sharyl Massey and Mallory Dotson**. We couldn't do what we do without them. We thank them and **thank you** for supporting Sky Hunters and our raptor education mission!

Blessings, Nancy and John
